EXAMINER

Detailed Action

Specification

1. The Examiner accepts the amendment to the specification. No new matter is introduced.

Claim remarks/amendment

2. Applicant's remarks see amendment, filed October 27, 2004, with respect to claims 16-36 have been fully considered. The rejections of claims 16-36 have been withdrawn. The Examiner acknowledges the terminal disclaimer in reference to claims 16, 21 and 30-36 that obviates a double patenting rejection over U.S. Patent 6,629,060. The amendment that removes the rejection of claims 22 and 23 under 35 U.S.C 101 is persuasive.

Allowance

3. Claims 16-36 are allowed. The following is an examiner's statement of reasons for allowance:

In reference to claims 16, 22, 24, 30, 35 and 36: *Klimasauskas* (U.S. Patent 6,110,214) teaches an analyzer for modeling and optimizing maintenance operations (see *Klimasauskas*, Fig. 3 and abstract). The analyzer includes a storage means for storing collected data (see

Klimasauskas, Fig. 3, devices 94, 96 and column 5, line 63 to column 6, line 4).

Unlike Klimasauskas the claimed invention provides a control device for controlling a plurality of analyzers, which are connected by a network. The device includes a storage means to store collected log information on the analyzers and has a display means for displaying a screen that displays a predetermined log information selected from the stored log information. Further, the screen controlling means controls the signal from the display where a designation of specific analyzer among the analyzers is realized. The log information noted above is quality control sample data from each analyzer through the network. These values are further tallied and notified to the analyzer through the network.

The remaining claims are dependent upon claims 16, 22, 24 and 30 and contain further limitations.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
